7/2		9	<b>THREE TEN</b>	<b>42</b>

#### Instructions for Using Fig\$Big Value Finder

1. Fill in the late track odds (for maximum results, we suggest doing this from 1-3 minutes before post time) - For each race, write the late track odds into the blank box under the "Late Trk Odds" heading (do so for all horses receiving FIG\$ ratings).
2. Compare late track odds and corresponding FIG\$ ratings - To find horse(s) with the best value or horse(s) that are overbet, compare the FIG\$ rating to the late track odds.
3. Make your decision on what horse(s) to bet - Important points to consider when looking for value:
  - Always note when the horses with the higher FIG\$ ratings have higher odds.
  - When horses with higher FIG\$ ratings are separated more than 8 from other horses, low odds may indicate value.
  - Consider betting against horses with low FIG\$ ratings and low odds.
  - When the FIG\$ ratings for a race are tightly grouped, consider keying off two or more rated horses with the highest odds.

NOTE: Entries-Verify horse name and # when there are entries (1, 1a or 2, 2a) because the Value Finder lists post position only, not head number.

Limited data - Due to limited information, foreign horses/lightly raced horses do not support all handicapping parameters. © Fig\$Big.com 2007
