"The main use that I had [from the Ultimate PP's with Summary] was the track bias and post position bias info. That was very valuable to me. In fact, that was the basis of a lot of my picks. Started Playing:

I was introduced to horse racing by my mother (Diana Ferguson – 14th in 2001 the National Handicapping Championship). I placed my first wager on a horse race at Scioto Downs in 1979. I started handicapping seriously with Thoroughbreds about three years ago. A good friend gave me some books on handicapping/wagering on Thoroughbreds.

Handicapping Mentor:

The large majority of handicapping skills that I have acquired along the way has come from reading books on the sport and on-the-spot experience in tournaments.

Brisnet.com products which aided in victory:

I used the **Ultimate PPs**, that includes the summary to aid me in my big tournament wins. The horse's running style and how the race sets up pace wise are very important tools in these reports.
