

Capsheet 4.0 Introduces ROI Express

Elvis Has Left The Building

We know a Cajun jockey who jokes that handicappers will always love Elvis because they worship ROI. However, while ROI does mean the King in French, ROI universally means Return On Investment to serious horseplayers.

It seems like everyone wants to talk about ROI, and we have certainly read about handicapping methods for improving ROI. As opposed to losing, all horseplayers would prefer a positive ROI of 5%, 10%, 20%, 30%, or even higher.

The problem is that many ROI schemes are vague about their research foundation, are poorly documented, and are difficult to verify. As our Cajun jockey friend might say, "Anyone can talk the talk, but who can walk the walk?"

ROI Express

With the release of Capsheet 4.0 handicapping software, we are pleased to introduce ROI Express, a brand new approach to handicapping and playing Trifectas and Superfectas.

ROI Express is:

- Founded on extensive research.
- Comprehensively documented.
- Easy to verify.

ROI Express Research Test Results

| Wagering Tactic | Total Number Of Wagers | BRIS \$2ROI | Average \$2NET | Total Profit |
|--------------------|---------------------------|----------------|-------------------|-----------------|
| Silver | 2,748 | 3.62+ | \$5.62 | \$207,623 |
| Gold | 4,406 | 2.06+ | \$4.06 | \$332,659 |
| Platinum | 5,195 | 2.31+ | \$4.31 | \$476,245 |
| Diamond | 5,075 | 1.71+ | \$3.71 | \$598,341 |

After you install Capsheet 4.0, you will be able to:

- Reproduce these results.
- Actually watch how they were obtained.
- Learn precisely how ROI Express works.

Three Ways Better

Capsheet 4.0 provides many other new features and enhancements. All are designed to give you an unprecedented edge before, during, and even after the races. We confidently assert that Capsheet 4.0 is the most powerful and comprehensive software package ever offered to serious horseplayers.

Serious horseplayers want to be better prepared before the races, make wise decisions during the races, and then learn from experience after the races. For each of these goals, we invite you to compare Capsheet 4.0 to any other handicapping product.
