## MAIDEN STATS 2002 On CD-ROM and in Book Format!

It's that time of the year - time to order the popular pedigree publication, MAIDEN STATS 2002, now available in both book format and on CD-ROM.

With statistics on over 30,000 two-year-olds of 2002, MAIDEN STATS is the ultimate guide for analyzing runners' pedigrees, and it's that knowledge which can lead to big payoffs. Whether it's turf, mud or a route, MAIDEN STATS has the pedigree information you need to conquer these races!

*"I have gone from a handicapper who dreaded races full of first time starters to one who actively seeks them out."* -

F. Roush, Florida

With the CD-ROM product, you can just pop it into your laptop or desktop computer and in seconds find out what you need to know about any 2yo on the card. Best of all, the new CD-ROM contains pedigree data on not only the two-year-olds but also all three-year-olds. It's like two books in one!

*"At a glance you will be able to determine the racing potential of a maiden... We rank it a strong 9 or 9 1/2."* -

Phillips Racing Newsletter

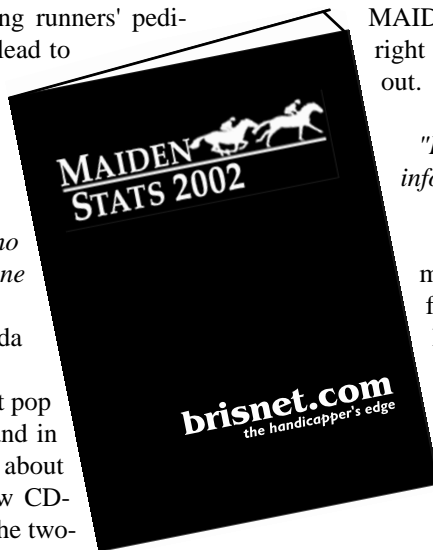

Yes, everything one needs to know about a horse's breeding is in this book or on this CD-ROM, including sire and dam statistics, dosage index, sales history, and top sibling information. If there is mud, turf or distance capability on either side of the family, MAIDEN STATS 2002 will tell you. You also will know right away if a first time starter is bred to win first time out.

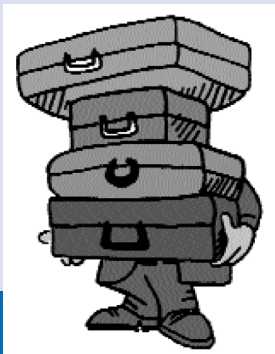

*"Handicapper's with a copy ... will have a serious information edge."* - Dave Litfin, Daily Racing Form

MAIDEN STATS goes beyond just two-year-old maiden events. If a runner attempts a route for the first time, the stats are there. In turf races, you will know which runners are bred to love the grass. It's a true handicapping bargain at only \$99.95 each or \$149.95 for both the book and the CD-ROM (Kentucky residents add 6 percent sales tax).
