## ***ALL-Ways™ June Special***

**5 Free ALL-Ways Data Files plus receive  
20 Archived ALL-Ways Data Files\* Free from the Archive Server**

During the month of June, you may download **5 ALL-Ways data files for race cards you want to play ... absolutely free!** Also during the month of June, you may download 20 archived ALL-Ways data files and corresponding Exotic Results Data files from the BRIS Archive File Server\* ..... **absolutely free!** If you ever wanted to build an ALL-Ways Race Database and/or if you ever wanted to try ALL-Ways for the first time, now is the time. This is a minimum savings of \$175!

Phillips Racing Newsletter awarded ALL-Ways handicapping software a 9 1/2 rating, their highest rating ever, and called ALL-Ways "absolutely the best free handicapping product on the market". At the core of ALL-Ways amazing performance are the Race Databases ALL-Ways automatically maintains in your computer for every track you handicap. One mouse click and ALL-Ways automatically processes the ALL-Ways data file you download from BRIS, makes thousands of calculations and adds the races to your Race Database for the track. ALL-Ways also automatically processes the Exotics Results Data file you download from BRIS and adds the race results to your Race Database. Here are some of the powerful ways ALL-Ways provides for you to take advantage of your Race Databases.

**Automatic Creation of Handicapping Profiles:** ALL-Ways uses 87 comprehensive Key Handicapping Factors covering each horse's suitability to the distance and surface, class level, current form and ability to handle the probable pace and speed demands of the race. One mouse click and ALL-Ways automatically looks at each individual race on the card you are handicapping, finds all similar races in your Race Database for the track and identifies the optimum set of Key Handicapping Factors that work best in combination with each other to find win, place and show horses. ALL-Ways then automatically creates customized Handicapping Profiles for each individual race on the card. **These profiles are both race-type and race-track specific.**

Frandsen Publishing used their ALL-Ways Race Database for Churchill Downs to analyze high class dirt route races and to automatically create a special Handicapping Profile just for the 2003 Kentucky Derby. This profile, along with profiles for other races on the Derby race card, was posted on the Frandsen Publishing Web site for ALL-Ways handicappers to use. This special Kentucky Derby profile looked at all 16 horses in the race and isolated the contenders down to only four horses.

This is pretty impressive performance for automatically handicapping the large field in the Kentucky Derby, probably the toughest race of the year to handicap.

ALL-Ways Picks		ALL-Ways Odds	Going-off-odds	Actual Finish
1st Pick	Empire Maker	3-1	2.50-1	2nd
2nd Pick	Peace Rules	7-2	6.30-1	3rd
3rd Pick	Funny Cide	10-1	12.80-1	1st
4th Pick	Buddy Gill	10-1	7.20-1	6th

**Impact Value Analysis:** This report shows you the handicapping power and flat bet profitability for each of the 87 Key Handicapping Factors for every kind of race run at the track.

**Gap Analysis:** This report correlates how well a horse performs based on the size (Gap) of its advantage for each Key Factor.

**Profile Performance:** The Database Run Analysis evaluates the performance of each of your Handicapping Profiles including how well they select win, place, show and 4th place finishers, their average payoffs and flat bet profitability and even the best way to structure your Exacta, Trifecta, Daily Double and Pick 3 wagers.

**Key Horse Candidates:** ALL-Ways automatically analyzes your Race Database to help identify Key Horse Candidates.

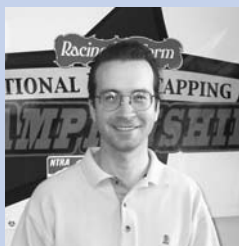

**Track Payoff Analysis:** This report shows you, in great detail, the average Win, Exacta and Trifecta payoffs for every kind of race run at your track.

# Nilsen Qualifies for Las Vegas Championship!

Brisnet.com Director of Marketing Rich Nilsen earned a qualifying spot for the third time in the past four years for the \$212,000 Daily Racing Form/NTRA National Handicapping Championship.

On Sunday, March 31, at Turfway Park, Nilsen used \$2 win and place wagers to turn a \$40 bankroll into \$124 on the 10-race live card. That earned him the \$6,500 grand prize and a trip to Las Vegas to compete in the 5th annual Daily Racing Form/NTRA National Handicapping Championship. Nilsen finished 8th overall in the 2002 event and helped lead the Keeneland team to the first place team prize of \$20,000.

**Using Ultimate PPs with Comments.** Nilsen cashed six of the 10 races on Sunday, including the last four races on the card.

"After losing photos and placing second several times throughout the day, I figured luck just wasn't on my side," Nilsen explained. "Then, I hit a big longshot in the final race, which put me over the top. I was very fortunate."

In the four years of the National Handicapping Championship, Brisnet.com members have won nearly \$400,000 in prize money. In January long time member Steve Wolfson Jr. captured the coveted Handicapper of the Year title and the \$100,000 grand prize.

## Quotes from two of the 2003 Challenge Grand Prize Winners

### Jack Canon - April 26, 2003

"I have played in all the Challenges and been close, but this is amazing. The funny thing is I did really poorly the first weekend. On the last weekend I decided to change my handicapping strategy. Instead looking for best horses first I started at the bottom looking for longshots. **I really like the BRIS pace figures in the Ultimates PPs.** They save me time and make handicapping a breeze."

### Mike Javert - April 27, 2003

"After watching all my alternate choices win the first weekend, I got wise and used all my alternate picks on Sunday. I am primarily a speed handicapper. My focus is on final times and fractional times. I look for horses who have shown improving form in their last two starts. I really try to keep simple and that is why **I use the Condensed PPs. It has everything I need.**"

## ***Wizard's Mid-Atlantic Platinum Plays***

Over the last several months, I have received numerous inquiries to provide daily selections for racetracks that I currently do not cover. In addition, there has also been interest regarding the release of new Wizard products. Because of these queries, and my constant efforts to accommodate loyal followers of 'The Wizard' whenever possible, I have developed a new product which addresses both of these requests. This new product titled **'The Wizard's Mid-Atlantic Platinum Plays'** will be comprised of selections drawn from racetracks that are situated within the Mid-Atlantic region of the country. Plus, all tracks are available for wagering through **BrisBET.com**. Because there is currently no daily selection sheet for these tracks, this product fills that void. These circuits/tracks are:

Delaware - **Delaware Park**

New Jersey - **Monmouth Park/Meadowlands**

Maryland - **Laurel/Pimlico**

Pennsylvania - **Philadelphia Park**

West Virginia - **Mountaineer Park**

**3 FREE Sheets  
in June!**

What is unique about this product is the fact that not every track appears on a daily basis. Only the strongest plays for that day from within the region are chosen. Depending on which racetracks are running on any given day, I will search each track for those horses which possess a decided edge over the competition. Each selection will be featured in a section of the report entitled, 'The Wizard's Platinum Power Play.' I will outline in this section all the advantages this runner has over its rivals. I will then proceed to map out a detailed wagering strategy for properly betting the race in an effort to maximize profits. Only my top selections from the Mid-Atlantic racetracks will appear. Purchasers of this new report can be assured that no fewer than three selections will be provided on any day they wish to download The Wizard's Mid-Atlantic Platinum Plays report.

The Wizard's Mid-Atlantic Platinum Plays will be available **Wednesdays through Sundays**, no later than 8 a.m. Eastern time, from May to November, coinciding with the racing dates of most of the major Mid-Atlantic region tracks. It will also be published on selected Mondays or Tuesdays when the situation warrants. And, as a special introductory offer, **during the month of June, you may download three Wizard's Mid-Atlantic Platinum Plays reports, a \$30.00 value!**
